

DBMAT: 2015 CONFERENCE EDITION

DBMAT 42nd Annual Family Conference ~ September 18-20, 2015 ~ Camp Young Judaea (CYJ)

Dear DBMAT families and the professionals who serve our DB family members,

Our DBMAT Conference Committee has been busy planning the Annual Family Conference for 2015 and it will once again be held at Camp Young Judaea (CYJ), in Wimberley, Texas. The DBMAT Annual Family Conference is scheduled for September 18-20, 2015.

With our Family Conference being held at Camp Young Judaea (CYJ), there are a few rules that must be followed by all attendees, or Camp Young Judaea reserves the right to terminate our contract for future years. Here is the main rule that we ask everyone to follow:

1. Camp Young Judaea is a Jewish facility located in Wimberley, Texas. CYJ hosts a variety of organizations during the spring, fall and winter months and are extremely accommodating, but they require that their dining hall, kitchen area and attached meeting hall (this is just one building) remain “kosher” at all times. This means that **absolutely no food or drink of any kind** can be brought into the dining hall/kitchen area or main meeting hall at any time during the weekend. Note: This includes gum, candies, mints, and outside drinks etc.

CYJ will be preparing all of our meals on-site in their kitchens and will see to it that the “kosher” standard is followed. Drinks will be located in the cafeteria and DBMAT will be placing CYJ approved “kosher” snacks on the tables in the meeting hall for everyone to enjoy. Please feel free to help yourselves to the snacks on the tables. CYJ is very excited to have DBMAT back for a 2nd year and we are all willing to help make this year as easy as possible.

Note: You are welcome to bring any special foods or drinks for you or your family members, but it must be kept either in the parent’s room or the Nurses’ Lodge. It cannot be brought into the dining hall/kitchen or meeting hall.

~Things to Consider Before You Register ~

DBMAT CHILD CARE

Workers: Child care workers will provide care for your child/children during the weekend so that you may attend the conference and have social time with other parents and professionals. All workers have background screenings and are knowledgeable through education, employment or family experience. (Yes, we have a few siblings that come with their unique experience and skills). Our focus is care, safety and FUN! **Childcare begins at 8:00 PM Friday and will continue till the end of the conference.**

Activities: The children will be engaged in fun outdoor activities in a camp setting. The camp offers a basketball court, playground area, arts & crafts room, swimming pool with a slide and lots of games. An air conditioned indoor area is set up with mats and toys for the infants and toddlers. Please bring a playpen, blanket or special toys that your little one may want or need.

Childcare groups:

- **Infant/Toddler Day Care:** Infant – 3 years have supervised activities with toys and outdoor fun. Parents are requested to bring toys that their child likes. Children will sleep with their parents.
- **Day Activity Kid Kamp:** 4 years and older participate in group activities including basketball, playground fun, arts & crafts, swimming and lots of games. Children will sleep with their parents.
- **24 Hour Kid Kamp:** 4 years and older participate in group activities including basketball, playground fun, arts & crafts, swimming and lots of games. Children will sleep with child care workers in cabins that are within walking distance of adult sleeping area.

Cabins: Children will be assigned to workers in cabin groups. Cabins are integrated with your children who are disabled and their siblings. Groups are made with consideration to gender, age, and activity level. Use the back of the Child Information Form to make special request such as friends who want to be together, etc

Parent Contact: During the weekend, the workers and nurses try their best to not bother parents during meeting times. We want you to have this time to focus on learning, sharing information, connecting with other parents and socializing. If it becomes necessary to talk to parents, Gay will send a text message asking a question or requesting you to meet at a specific place. Be sure to include your mobile number on the Child Information Form.

Dining: There will be two dining areas at the camp. Only kosher food is allowed in the main dining room area. If your child needs special food that is not kosher, or food that you have made at home, he/she will eat in the dining area at the nursing lodge. Their food can be stored in the nursing lodge that comes equipped with a refrigerator and microwave. Food can be brought from the main dining area to the nursing lodge if necessary.

Pictures: One of the workers will be assigned to get pictures of your child during the weekend participating in activities. If you bring a flash drive, your pictures can be uploaded and ready for you to take home.

Nursing care: Three nurses will be at camp to provide first aid, administer medications, treatments, tube feedings, do catheters etc. Although there will be a nursing lodge, it is not stocked with medical supplies other than a basic first aid kit. Please bring what your child needs.

Medication and Equipment:

Parents must bring all medications including PRN's and any medical equipment that your child/children will need. This includes but not limited to: applesauce or pudding (if needed to take meds), nebulizer machine, oxygen, inhalers, g-tube supplies (including extra g-tube/button if needed), suction, suction catheters, saline,

urinary catheters, tube feedings/formula, prosthesis, hearing aid, basic hygiene items, bedding, diapers, dressing supplies, diabetic supplies, etc.

EPI (Epinephrine) Pen

This is in an outdoor setting so if you or your child has any allergy that may be life threatening (anaphylactic) whether it is food, animals, bugs/insects etc. Make sure you bring your EPI (epinephrine) pen. It is better to be prepared than not to have it, if needed. The nurse will work with you on meds, treatments etc.

Prescription Medication

Bring medications in the original medication bottles from the pharmacy if they are prescribed from a doctor. Nurses cannot give medications that are in baggies, etc. It is fine to separate medication in box/med minders but it is still necessary to bring the prescription bottle so medication and dosage can be verified.

Child Care Information Form:

- Make as many **copies** as you need. Complete a Child Information Form for each child (disabled or sibling).
- Use ink and print the information clearly.

Weekend Medication Form

- Make as many **copies** as you need. Complete the Weekend Medication Form for each child (disabled or sibling).
- Use ink and print the information clearly.
- The nurses will review the form when you register at camp so do not be concerned if the medication changes after submitting this information.
- List all medications that you will be bringing for your child. Include: name, dosage, frequency (how many times per day), route (by mouth, per feeding tube etc.).
- In the space provided, list the times you give medication. The nurses will try to administer medication as close to the time given as possible. Times may vary to coordinate the schedule, groups, and number of children. If it is essential for the medication to be taken at a certain time, specify that at the bottom of the form and explain.
- If you have special instructions, use the space provided and the back of the form.

Questions / Contact: Before the weekend, if you have questions or special requests regarding childcare, you may contact Gay via email at gaybellamy@me.com (preferred) or call (210) 865-3231. During the weekend, if you are needed, Gay will send text messages directly to you or a meeting facilitator.
